Union Syndicale Parlement Européen

VOTE LIST Nº 11

FOR A TRUE SENSE OF DIGNITY!

Daily we are surrendering **highly sensitive personal information** to our employer - health records, family details, financial data, and more. This information is vulnerable and must be shielded from unauthorised access.

Therefore **USPE - Union Syndicale Parlement Européen (List 11) urgently demands** the immediate installation of a robust **access log function on all systems handling personal data**. This tool would allow Colleagues to see **exactly who accesses their personal information and when**, acting as a strong deterrent against misuse while ensuring full accountability.

To achieve real protection, we also demand:

- **Clear training** for all staff on legitimate access rules and data privacy.
- **Strict enforcement** of the logs, with swift investigation and sanctions for violations.
- **A collective commitment**: every colleague must ask - "Do I have a genuine, job-related reason to view someone else's personal data?"
